BY ELDORADO STONE

There's a beauty and elegance in simplicity. A freedom in the absence of unnecessary detail. A statement made when form follows function. Introducing our newest expression of this ideal—**The Modern Collection by Eldorado Stone.** Developed to accentuate contemporary designs, these stones pair refined color with clean lines to blend or contrast with neighboring elements. Minimal. Sensible. Perfect. Balanced. A natural showcase for palettes of wood, steel, concrete or glass. The results are spaces that come alive. That speak for themselves and take center stage. Proof that less can truly be so much more.

Oyster Cut Coarse Stone (page 43) with a dry-stack grout technique.

Because Eldorado Stone replicates natural stone, variations should, and can be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques — and actual viewing conditions — can alter perception of color. It is recommended to obtain a sample of Eldorado Stone before placing an order.

If you would like more information on prices, availability of stone, the name of your local distributor, or answers to any questions not covered in this brochure, please contact us. We would be happy to assist you with your stone building plans. Detailed installation instructions, specifications, technical information and test data is available upon request.
